

Not Too Far

Kutless

You are the sky, waters lie underneath Your canopy,
I felt a spark inside my heart ignite a burning symphony.

Every moment I feel Your heartbeat, every moment I feel you move,
All I see is a shadow, when all I want is to be right where You are,
Holding on to forever, and the promise that Heaven's not too far.

You are the sky, and I'm alive inside Your mystery,
Infinite space and time collide inside Your perfect harmony.

Every moment I feel Your heartbeat, every moment I feel you move,
All I see is a shadow, when all I want is to be right where You are,
Holding on to forever, and the promise that Heaven's not too far,
not too far.

I know that You're near to my heart and I'm safe in Your arms,
Heaven's not too far.

Every moment I feel Your heartbeat, every moment I feel you move,
All I see is a shadow, when all I want is to be right where You are,
Holding on to forever, and the promise that Heaven's not too far,
not too far,
Not too far, not too far.
