## Walk

Gotta slow up, gotta shake this high Gotta take a minute just to ease my mind 'Cause if I don't walk then I get caught out And I'll be falling all the way down

(Hundred, hundred, hundred) hundred headlights making me blind All of your pleasures catching my eye If I jump once then I never think twice But your temptations making me stay another night

And my senses only lie to me, lie to me I don't know how it feels so raw to me, raw to me I gotta check myself before I get what I want Find out it's not what I thought it was And you know I

[Chorus:]
Gotta slow up, gotta shake this high
Gotta take a minute just to ease my mind
'Cause if I don't walk then I'll get caught out
And I'll be falling all the way down
Turn my head and shut my eyes
Doesn't even matter if I'm wrong or right
'Cause if I don't walk I'll keep messing around
And I'll be falling all the way down

Tell myself leave, while I'm still strong Won't look back till I'm 10 miles gone And when the road stops I'm gonna keep on Until I end up in the place that I belong

But the pressure's pushing me back again Telling me not to pretend There's any use even trying to get you out my head So I lift my feet off the ground And I'm gonna walk right up

[Chorus]

Won't get caught in the old fly trap Run away, run away, never come back No way I'm going down like that No, no, run away, run away Won't get caught in the old fly trap (I can't get caught up again) Run away, run away, never come back No way I'm going down like that (No way, no way) No, no, run away, run away

[Chorus]

I'm better walk now I'm better walk now, yeah No, no, no Better walk, yeah Yeah.
