

## This Day...

Kyla

This day when you left me  
I realized how much you mean to me  
This day when you said goodbye  
I never thought that I would cry  
Our faultless dream that we used to do  
Now shattered and filled with sorrow too

We can never go back to that dream again  
Cause I know my heart  
It will soon end

How could it be  
That our love can't be saved  
How can I say  
My love for you will forever embrace  
It's too late  
It's too late  
Our promised love has gone to late

This night when you left me  
I realized how much you mean to me  
(How much you mean to me)  
This night when you said goodbye  
I never thought that I would cry  
Our faultless dream that we used to do  
Now shattered and filled with sorrow too

We can never go back to that dream again  
Cause I know my heart  
It will soon end

How could it be  
That our love can't be saved  
How can I say  
My love for you will forever embrace  
It's too late  
It's too late  
Our promised love has gone to late
