

All Night

Kyle Park

Yesterday My Friends came around
They know that I'm lonely
Now that it's only...
A matter of time before I break down
You're my only, you're why I'm lonely

They say a night on the town is goin' to save me
They say I'll figure it out even if it takes me...

All Night, I'm gonna be alright
I know heartache heals in time
And it might take awhile to see, all the things I need
To mend this broken heart of mine
It's gonna take me all night

So we go out to my favorite place
They know that I'm lonely because they all know me
Then walks in the most beautiful face
She says "I know you don't know me, but I can tell you're lonely"
We may not have much time but maybe I can save you
I said "Girl I'll let you try cause even if it takes you."

All Night, I'm gonna be alright
I know heartache heals in time
And It might take awhile to see, all the things I need
To mend this broken heart of mine
It's gonna take me all night

They say a night on the town is goin' to save me
They say I'll figure it out even if it takes me...

All Night, I'm gonna be alright
I know heartache heals in time
And it might take awhile to see, all the things I need
To mend this broken heart of mine
It's gonna take me...

All Night, I'm gonna be alright
I know heartache heals in time
And it might take awhile to see, all the things I need
To mend this broken heart of mine
It's gonna take me all night
All Night
