

Baby I'm Gone

Kyle Park

Here I go, I'm tearing down this road
Where I'll stop next I don't know
But I'm gone, baby, I'm gone

It took six months for me to finally see
That you didn't really care about me
So I'm gone, baby

CHORUS

I'm gone wherever my heart takes me
Gone just as fast as I can
Your hold on me was more than I could take in the end
I'm gone and I'm probably half crazy
Gone right out of my mind
But at least I'm finally gone like you've been for all of this
time

It seemed for the most part that our love was true
Except for those nights I spent waiting up on you
Now I'm gone, baby, I'm gone
I hoped someday you and I could settle down
But all that's changed now that I'm leaving town
I'm gone, baby

CHORUS

You always would say I could never make it out on my own
Well watch me now and see if I ever bring it on back home

CHORUS
