

Long Distance Relationship

Kyle Park

A long distance phone call
At 2 in the mornin', but I don't mind at all
Cause I stay up most nights, just thinkin' of you
And how when I get home, I'm gonna love you
I know it's hard when I'm away
But trust me when I say
That we'll be okay
But we've got to stay strong

It's gonna be a long distance relationship
As long as I keep livin' like this
You're gonna be alone
More than I get to be home
But somehow this makes the heart grow fonder
Our love just keeps getting stronger
With every kiss of this long distance relationship
That we've started

Oh so wild and reckless-hearted
We both agree that it's worth tryin'
And nothin' is worse than hearin' you cryin'
Everything I wanna say, can't always be face to face
But know I love you just as much on the telephone
And oh

It's gonna be a long distance relationship
As long as I keep livin' like this
You're gonna be alone
More than I get to be home
But somehow this makes the heart grow fonder
Our love just keeps getting stronger
With every kiss of this long distance relationship
That we've got goin'
The only thing worth knowin'
Is that our love is gonna keep growin' on an on

It's gonna be a long distance relationship
As long as I keep livin' like this
You're gonna be alone
More than I get to be home
But somehow this makes the heart grow fonder
Our love just keeps getting stronger
With every kiss of this long distance relationship ohh
Hmm
