

One More Before I Go

Kyle Park

I haven't felt this alive since God knows when
It seems like we've danced to every song
I still feel like dancing but I know I should leave
But if I would have known you all along

We'd still be dancing so in love
Because this is as close to heaven as I'll ever know
And all that I can say to you
Is let's dance one more before I go

I used to come here every night when I was younger
But lately I just don't have the time
Darlin' I just want to thank you again
But if you were mine
