

Turn That Crown Upside Down

Kyle Park

After a long day at work
Neck-deep in the dirt
Mud beneath my fingers
Sweat drippin' down my shirt
I punch that clock at five
Thank God I'm still alive
Hit the gas and head fast
To my favorite local dive
And I turn that Crown upside down
To make me feel alright
Jack has got my back and
Let that Maker's make my night
When Beam is on the scene
You know that's how I roll
But I turn that Crown upside down
And let them good times flow

I came home late once again
Three sheets to the wind
All my baby had to say was
Where in the hell you been?
I been out with my friends
Evan, George and Jim
I don't need water, Johnny Walker
I'm on the rocks again
So I turn that Crown upside down
To make me feel alright
Jack has got my back and
Let that Maker's make my night
When Beam is on the scene
You know that's how I roll
But I turn that Crown upside down
And let them good times flow

No I don't even stop to think
When I'm thirsty for a whiskey drink
So I turn that Crown upside down
To make me feel alright
Jack has got my back and
Let that Maker's make my night
When Beam is on the scene
You know that's how I roll
But I turn that Crown upside down
And let them good times flow
Yeah when Rebecca Creek is in my drink
I'm fired up to go
But I turn that Crown upside down
And let them good times flow
Oh I let them good time's flow
