

This Time Next Year

Kyler England

It's almost time to turn back the clocks
Squeeze every drop
Of sunlight left in the day

Buy paper for school
Follow the rules
Make it home for dinner

But there's still summer left in us
Let's lay in the park and gather dust

On the longest day of the year
On the longest day of the year
I promise I will still be here
This time next year

It's been 4 years since we met
When destiny set
In motion this beautiful collision course

On a brooklyn night
With a view from the heights
We saw stars and our future

Now every summer left in us
We'll lay in the park and gather dust

On the longest day of the year
On the longest day of the year
I promise I will still be here
This time next year
This time next year

You said I will never let you go
You said I will never let you go

On the longest day of the year
You held my hand, and whispered in my ear
I promise I will still be here
This time next year
This time next year
