3. Especially for you

I wanna tell you, you mean all the world to me

How I'm certain that our love was meant to be

You changed my life

You showed me the way

And now that I'm next to you

*: I've waited long enough to find you

I wanna put all the hurt behind you

Oh,

And I wanna bring out all the love inside you,

Oh

R: And now we're...

You were in my heart
My love never changed

R: And now we're...
