

# Loving Days

Kylie Minogue

Hmm... hmm...

I'll dive deep, I have fallen all the way  
Happily there's no escape, surrender to your heart  
Giving in to all of this, fascinated by your kiss  
I'm floating in your arms

Take your time, just unwind  
Ooh, I wanna breathe you in  
A little while to ease your mind  
You're the world I'm living in

Precious time with you  
Diving in the blue  
We are riding on the waves  
These are loving days, loving days with you

Fantasy, feel it rushing over me  
Nowhere else I want to be, my love is by my side (by my side)  
For a moment you and me, holding on to ecstasy  
Give us all day and night (oh)

Take your time, just unwind  
Ooh, I wanna breathe you in  
A little while to ease your mind  
You're the world I'm living in

Precious time with you  
Diving in the blue  
We are riding on the waves  
These are loving days, loving days with you  
(These are loving days)

Precious time with you  
(This is precious time with you)  
Diving in the blue  
(We are diving in the blue)  
We are riding on the waves  
These are loving days, loving days... with you

Oh... hey... oh, oh... whoo... hey...  
These are loving days... with you

Precious time with you  
Diving in the blue  
We are riding on the waves  
These are loving days, loving days with you  
(These are loving... days)

Precious time with you (ooh)  
Diving in the blue  
We are riding on the waves  
These are loving days, loving days with you...
