

# Don't Look At Me That Way

L.A. Guns

Seems I got the wrong directions  
Lost my way so long ago  
And the poison still flows through my veins  
But that's alright my baby  
Don't look at me that way  
Yeah I did not fake it  
Don't look at me that way

A circle feels like a direction  
I keep spinning round and round  
And the engines never seem to cool, yeah  
But that's all right my darlin'  
You ain't nobody's fool  
And they are lying baby  
When they said I treat you cruel

But that's all right my darlin'  
Don't look at me that way  
I did not fake it  
Don't look at me that way
