

Did You Ever Hate Me

LAB

You don't really love me
Not if I can't break your Heart
You don't really need me
If I can't tear
Your world apart
However hard I always try to break your heart
You just keep on smiling patiently
However hard I try to tear your world apart
You just keep on loving me patiently
And so tenderly
You don't even see me when I
Dance with someone else
You don't seem to worry
When you see me pack my things

However hard I always try to break your heart
You just keep on smiling patiently
However hard I try to tear your world apart
You just keep on loving me patiently
And so tenderly
However hard I always try to break your heart
You just keep on smiling patiently
However hard I try to tear your world apart
You just keep on loving me patiently
And so tenderly
Did you ever hate me?
