

When Heaven Gets Dirty

LAB

Out of work, out of pay
She knows she'll be measured
Paradise should be hers
She's got dirty feathers
When heaven is dirty
There's pleasures whispering her name
When heaven gets dirty
There must be someone she can blame
She's dirty
She's great when she's good
When she's bad she's better
Paradise is not hers
She's got guilty pleasures
When heaven is dirty
There's pleasures whispering her name
When heaven gets dirty
There must be someone she can blame
She's dirty
So dirty
Heaven, heaven let me in
I'm fallen but I love my sin
I'm tired tough I'm me I always win
When heaven is dirty
There's pleasures whispering her name
When heaven gets dirty
There must be someone she can blame
X2
She's dirty
So dirty
She's dirty
There must be someone she can blame
So dirty
There must be someone she can blame
She's dirty
There must be someone she can blame
She's dirty
There must be someone she can blame
When heaven gets dirty
