

Cosmic Dancer

Labelle

Cosmic dancer, dance with me
Spread your legs across the sea
Cosmic dancer, won't you try
To spread your wings so that we can fly?
Cosmic dancer, if you do
We can do the things that dancers do
You don't have to worry
Confusing your mind
You won't have to hurry
All we have is time
I wonder where you'll sleep tonight
I wonder whose arms will hold you tight
But until the morning light
Cosmic dancer, dance with me
Take the time and we will see
Tell me, who is cruising who tonight
Dance me hot under the lights
Cosmic dancer, if you do
We could dance like lovers do
You don't have to worry
It's nothing but time
We can find the courier to blow our minds
Then I won't wonder where you're gonna sleep tonight
And I'll know whose arms will hold you tight
So until the morning light
Cosmic dancer, dance for me
Amy and I we will see
Cosmic dancer, if you try
We'll fly on wingless arms to the sky
Cosmic dancer, if you do
We could dance like lovers too
You don't have to worry
Con-co-confusing your mind
We can find the courier to blow our minds
And I won't wonder where you're gonna sleep tonight
I know these big ole arms will hold you tight
But until the morning light
Cosmic dancer, dance
Cosmic dancer, dance
