

Going Down Makes Me Shiver

Labelle

You give me everything I need
You feed my spirit
You don't even have to speak
My mind can hear it
When I'm going down to your river
Going down to your river
Going down to your river
Going down makes me shiver
And the chill of the water makes me feel so good

And I forget all about my lost years
When I am kneeling
It's so hard to explain
Exactly what I am feeling
When I'm going down to your river
Going down to your river
Going down to your river
Every time it makes me shiver
And the chill of the water makes me feel so good

And I've been down so many times
And now I've found that perfect climb
And I'm climbing, climbing
In perfect timing

When I'm going down to your river
Going down to your river
Going down to your river
Every time i'm gonna shiver
In the chill of the water makes me feel so good, so good, so good

And I've been down so many times
And now I've got that perfect climb
And I'm climbing, climbing
In perfect timing

Going down to your river
Going down to your river
I'm going down, going down, going down and I ain't gonna stop
Until I shiver in the chill of the water makes me feel
Stop until the shiver and then I feel the, oh the chill of the water makes me feel...
I'm going, going, going, going, going
Going, going, going down

I ain't gotta say nothin' 'cause you know
It's so hard to explain what I'm feeling
When I'm going down to your river
Going down to your river
Going down to your river

Going down to your river...
Makes me feel so good, so good, so good, so good, so good
