

Morning Much Better

Labelle

How many times have I told you, baby
That I'd do anything you say
But listen here, Daddy, now I got feelings
And you can't do me this way (No)

Ain't said no to your lovin'
Never did, never never plan to do
But if you want to keep me happy
Better hear what I'm saying to you

Most people think that a midnight trip
Is a proper kind of scene
But I come on feeling very foggy
And I never seem to cut it too clean

People think they're at the top of their form
After staying up half of the night
But I know after a good night's sleep
I can, ooo, get it on alright

I ain't never resisted, oh no
Oh, when you have insisted, no
But I like it, oh
(Ooo, morning)
Oh, I like it, like it
(Ooo, morning)
Oh, I like it better
(Like it in the morning much better)
But I usually like it much better in the morning, yeah

Early in the morning with the sun just up
And the air so fresh and sweet
People just gettin' their boots pulled on
And struggling out into the street

Takin' their time a while before they start cutting their wood
But I don't know, baby, just what it is, but that's mmmm, when I feel good
Oh, with seven behind me
Oh, you better come find me, yeah

Oh, I like it
(Ooo, morning)
Oh, I
(Ooo, morning)
Said that I like it, I like it
(Like it in the morning much better)
But I usually like it much better in the morning

Oh, I like it anytime, but I prefer it in the morning, yeah...
Oh, I like it, yes I do
Oh, good God Almighty, I said
I like it, I like it, I do like it
I like it in the morning much better

But I usually like it much better in the morning
Oh, yeah
