

# Prepped For Disembowelment

Labyrinthe

Surgical lines are drawn  
After the hair is removed  
Tools of torture are de-sanitized  
And prepped for blood

Slice open the back to reveal the spine  
Chisel the brain stem to stop the movement  
It's time to operate

It's too bad you'll be awake through the procedure  
But the brain must stay intact until your insides are removed  
Ruthless incisions  
I can't wait to see your face when I abduct your fucking heart

One by one your teeth are pulled out with a dirty wrench  
Dropped in acid and then funneled down your fucking throat

Prepped for disembowelment  
Prepped for disembowelment

Strung up by meat hooks and gutted like the pig you are  
At this point you might as well just kill yourself

Time has come to dispose of the body  
Bag the organs and burn the eyes  
Incisions made and brain is pressed against the glass  
To analyze the way your mind began to fall apart

I have dug canals deep in your flesh  
The smile on my face describes the satisfaction

Now you have been disemboweled  
Now you have been disemboweled  
Now it's time to fucking die

You were just another piece of skin  
Another perfect fucking murder  
You were just another piece of skin  
Another perfect crime

You were just another piece of skin  
Another perfect fucking murder  
You were just another piece of skin  
Another perfect crime
