You are going down You are going down You are going down Down

At the bottom I have found I cannot wait to get back in the fight

And send you straight to the ground Hide and seek When I'm on the ropes You wanna knock me down, knock me out Your cheap shots are denied

You're going down
You can't kill my soul and kill me dream
Back down
Now
You will understand me now
You don't want to come back to the fight
I've been the underdog all my life
I can feel it
I will not stop until I see you down
On the ground
Cause I am still alive
