

Reactor

Ladyhawke

Hey there Mr. Right
Your heart is outta time
She don't want your ego
She thinks you're borderline

Don't be alarmed now
But she never wanted you

Did I cause a reaction?
You're just trying to distract her
No more fatal attraction
You know you're the reactor
You're the reactor
You're the reactor

Hey there lonesome man
I sing this song for you
Your time has long been over
I'm sorry but it's true

Don't be alarmed now
But she never wanted you

Did I cause a reaction?
You're just trying to distract her
No more fatal attraction
You know you're the reactor
You're the reactor
You're the reactor

You're the reactor
You're the reactor

Did I cause a reaction?
You're just trying to distract her
No more fatal attraction
You know you're the reactor
You're the reactor
You're the reactor
You're the reactor
