

Time Flies

Ladyhawke

I fly in on airplane to see my own home again
Gotta make it
I'm feeling like I'm kinda falling over
All over the radio
They're playing our song again
Got me feeling in love again

I'm kinda falling down
Run fast, talk slow
Gotta make that time go
Big plans, small fries
Don't know how the time flies
Don't know how the time flies

Don't know how the time flies
Right into the sky
Carry us home
Where we belong
We're always gone for so long
God only knows
When we'll be home
Where we're all full
Where we're all full

You call on the telephone to say I've been gone too long
So I play you that loving song

It kinda makes you feel
Upbeat, down low
Gotta learn to let it go
Big heart, blue sky
Trying to get the good life
Trying to get the good life

Don't know how the time flies
Right into the sky
Carry us home
Where we belong
We're always gone for so long
God only knows
When we'll be home
Where we're all full
Where we're all full

Run fast, talk slow
Gotta make that time go
Big plans, small fries
Don't know how the time flies
Don't know how the time flies

Don't know how the time flies
Right into the sky
Carry us home
Where we belong
We're always gone for so long
God only knows
When we'll be home

Where we're all full
Where we're all full
Where we're all full
Where we're all full
