

Walk Away

Ladyhawke

What good is a day when it's hidden away?
You're burning the sage, chasing demons away
You are the one who's been calling on me
'Cause I live my life with the ones around me
Keep burnin' baby

Ooh, I love to play
Especially when you walk away
The earth shakes to the core
I know I led you on and more
Ooh, I have to say
I love it when you walk away

You know, know, know you won't believe it
Oooh-ah, oooh-ah

I often wonder what you make of me
How you decide what is plain to see?
Oo-oo, you are the one who's been calling on me
But I often feel it's so plain to know me
Keep burnin' baby

Ooh, I love to play
Especially when you walk away
The earth shakes to the core
I know I led you on and more
Ooh, I have to say
I love it when you walk away

You know, know, know you won't believe it
Oooh-ah, oooh-ah
You know, know, know you won't believe it
Oooh-ah, oooh-ah
You know, know, know you won't believe it
Oooh-ah, oooh-ah

You know, know, know you won't believe it
You know, know, know you won't believe it
You know, know, know you won't believe it
You know, know, know you won't believe it

Ooh, I love to play
Especially when you walk away
The earth shakes to the core
I know I led you on and more
Ooh, I have to say
I love it when you walk away

You know, know, know you won't believe it
Oooh-ah
You know, know, know you won't believe it
Oooh
You know, know, know you won't believe it
