

The Reason Why

Ladytron

Where am I
Sleeping at the console
I dreamt something
That I don't remember

Checking in
Just like any other
Signing off
Signing out forever

Your second hand
That's the reason why you're easy to drive
(the reason why)

You understand
That's the reason why you're easy to hide

My heart says yes
But I was sedated
Signing off
Checking in together

Your second hand
That's the reason why you're easy to drive
(the reason why)

You understand
That's the reason why you're easy to hide
(the reason why)

You joined a band
That's the reason why you're easy to try
(the reason why)

You understand
That's the reason why you're easy to hide
