

Bye for Now

Lagwagon

Here comes the day I see my friends far away
When I grow up inside what will happen to me?
The city sights the business types
I can see but where are you?

Bye for now
Didn't mean to let you down
Didn't mean to drive you away
Bye for now!
Now that your not around
So many things I'd like to say!

See here I think I've found the missing link
The piece that holds us together
If I had my way I'd here you say that it's OK
Friendship should last for ever

Bye for now
Didn't mean to let you down
Didn't mean to drive you away
Bye for now!
Now that you're not around
So many things I'd like to say!

Didn't mean to let you down
Didn't mean to let you down
Didn't mean...
Never meant to let you down
Didn't mean to let you down
