

## Parents Guide to Living

Lagwagon

Wasting his days and his nights  
Nothing's changed  
Nothing's right

He has no sense of pride  
Sees no respect in his parents eyes  
And why should he care?

No one ever cared for him?  
Wasting her nights and days  
Sixteen with a child

God wouldn't have it any other way  
And then they told her of shame  
And that impurity made her bed

No fuckin' choice  
She took two lives instead  
All these worthless nights

All these wasted days  
Down the path I follow you  
Because who am I?

Denial  
I still care  
But it's my life in despair

Laughing harder  
In self-conscious  
I've played my last solitaire

That shirt's too tight to wear  
Wasting my days and nights  
Nothings changed

Nothings right  
I know I'm not exactly  
The parents guide to living

But it's the road less traveled  
In this world so unforgiving  
And I've lost count of score
