

# Call off Your Dogs

Lake Street Dive

Hello  
I'm not gonna bite you  
Just want a light  
You got me wishing that I never said  
Hello  
Don't wanna fight you  
I don't got a right to  
This is what I get for being civilized  
I apologize  
I'll let you go in a minute  
If you want a goodbye  
It's not what I want to say  
Took my salutations and threw 'em away

Call off your dogs  
Give someone a call  
I know there's something wrong with the limits  
We got turned around, but we could spin it  
Call off your dogs  
What's with the wall?  
If we're strong, we can win it  
One word can begin it  
Hello

I got a right to call you, baby  
I got a right to say hello  
Remember when you used to like me baby?  
And it wasn't that long ago  
This is what I get for being civilized  
I apologize  
And I'll let you go in a minute  
If you want a goodbye  
It's not what I want to say  
You took my salutations and threw them away

So call off your dogs  
Give someone a call  
I know there's something wrong with the limits  
We got turned around, but we could spin it  
Call off your dogs  
What's with the wall?  
If we're strong, we can win it  
One word can begin it  
Hello  
[repeat]
