

How Good It Feels

Lake Street Dive

I'm having so much fun on my own, I wanna tell somebody
I'm having so much fun all alone, I wanna let somebody know
How good it feels to be alone
How good it feels to be alone

I'm having so much fun by myself, I want the whole world to know
That I don't need anybody else to row my boat
And how good it feels to have nobody to make conversation with
How good it feels to have nobody to keep up relations with
How good it feels to be alone
How good it feels to be alone

Oh but I get so afraid when it's late at night
I stare up at the sky, begging for light
And then the cold comes over me, and I know that this ain't right
I remember
Nobody should be living alone

And how good it feels to have somebody to make conversation with
How good it feels to have somebody to keep up relations with
How good it feels to have a friend
Be together again
How good it feels to have you
How good it feels to have you
How good it feels...
