

Musta Been Something

Lake Street Dive

You said I, I didn't do anythin' wrong
But there musta been somethin' I could've done better
Oh, boy you said I, I didn't do anythin' wrong
But there musta been somethin' I could've done better

Did you want me at home more?
Was I runnin' around more than you liked me leavin' you?
Did you want more alone time?
Was I callin' you up every night when I needed you?

Times that I was tired and selfish
I don't know why I did it, I couldn't help it
But you know that I tried
Now I keep on askin'
Could I?
Could I?

You said I, I didn't do anythin' wrong
But there musta been somethin' I could've done better
You said I, I didn't do anythin' wrong
But there musta been somethin' I could've done better

Memories twist the light
I know you're thinkin' tonight about the things I did right
But seein' you so happy now
Has got me thinkin' about all the things I did wrong

Times that I was quiet and distant
I don't know why I didn't tell you what I meant
But you know that I tried
Now I keep on askin'
Could I?
Could I?

You said I, I didn't do anythin' wrong
But there musta been somethin' I could've done better
You said I, I didn't do anythin' wrong
But there musta been somethin' I could've done better

I didn't do anythin' wrong
There musta been somethin' I could've done better
You said I, I didn't do anythin' wrong
But there musta been somethin' I could've done better
