

So Long

Lake Street Dive

So long
Why're you going away for so long?
Why don't you just stay where you belong?
And then we'd never have to say "so long"
So long
The days while you're away feel so long
I'm wasting away while you are gone
I wish we'd never had to say "so long"
So wrong
You know it always feels so wrong
To say goodbye to you for
So long
What kind of universe would keep me away
From someone that I have loved for
So long
The years, they're slipping by me and I'm still
So alone
The nights that I have cried here sitting
Solo
Oh I don't know
How to say goodbye
So I'll just say:
So long...
