

# What About Me

Lake Street Dive

You might think you understand  
What turns a boy into a man  
You gotta search alone and worthy  
But that'll make a lonely girl  
that has the top and that rules the world  
A king who choose his crown over his queen

Before he gets the notion he doesn't need you  
Before the motion grows your plan proceeds to

Say what about me  
Say what about me  
Look at all the heads I'm turning in the street  
Well my oh my, don't you realize  
One thing should be on your mind  
What about me

You meet his friends you meet his folks  
You love his songs you love his jokes  
You show him all the moves he's never seen  
Then you take his will away  
You never go a single day without asking him  
With whom or where he's been

You do it all to show him what he's worth  
The last things it's about is helping her

Say what about me  
Say what about me  
Look at all the heads I'm turning in the street  
Well my oh my, don't you realize  
One thing should be on your mind  
What about me

I have lived a privileged life  
But I have seen my share of strife  
And nothing beats the boy that's leaving me  
I might have pushed a little hard  
I might have took it way too far  
But you've got respect consistency

That's why the next time I won't wait to fall  
You know me, I won't hesitate to

Say what about me  
Say what about me  
Look at all the heads I'm turning in the street  
Well my oh my, don't you realize  
One thing should be on your mind  
What about me
