

## Follow Me

Lakeside X

Follow me  
Into the light  
Believe me  
The first time ever  
In my life  
The wind started to blow  
And the spark  
Set a fire  
In the deep blue sea

Can you feel it  
Like I feel it  
There's a neverending way  
In front of us

Follow me  
Into the day  
And let your eyes see  
And let your ears hear  
The words are meaningless  
Just let the Moon shine  
And your dreams  
Let them quietly  
Come to you

Can you feel it  
Like I feel it  
Don't you know, girl  
It's our destiny
