

# Cold Outside

Lana Lane

You're the voice that calls to me  
In my dreams you keep me warm  
You're my everafter  
And my shelter from the storm

But something comes around  
To pull our bridges down  
Oh i can feel the cold winds blow  
And i find myself alone

Baby it's cold outside  
When the rain is fallinig i can hear you callin'  
I'ts cold outside  
Don't quench the fire of love  
'cause baby it's cold

Counting hours in the dark  
Hope that walks a prision wall  
Memories cast a shadow  
Reasons you give won't break the fall

But something comes around  
To pull ours bridges down  
Oh i can fell the cold winds blow  
And i find myself alone

Baby it's cold outside  
When the rain is fallin'i hear you callin'  
It's cold outside  
Don't quench the fire of love  
'cause baby it's cold

Candles burnin'through my stained glass pain  
Loves's reflection in my soul  
Unopened letters from my beating heart  
I look and search for more

Baby it's cold outside  
When the rain is fallin 'i hear you callin'  
It's cold outside  
Don't quench the fire of love  
'cause baby it's cold
