

Our Time Now

Lana Lane

Like flowers that bloom in the spring
Like church bells just waiting to ring
The chance of a lifetime at last
Don't let it pass

Our Time Now
Just like the moon comes through the clouds
And just like the sun, stars come undone
It's our time now

Like valleys with mountains to climb
Like clocks that are waiting to chime
The chance of a lifetime will pass
Let's make it last

Our Time Now
Just like the moon comes through the clouds
And just like the sun, stars come undone
It's our time now

Like laughter from children at play
Like whispers with something to say
The chance of a lifetime at last
Don't let it pass, no

Our Time Now
Just like the moon comes through the clouds
And just like the sun, stars come undone
It's our time now

Our Time Now
Just like the moon comes through the clouds
And just like the sun, stars come undone
It's our time now
