

Rainbow's End

Lana Lane

Somewhere out of everyday
There's a place where you can hide away
Stories ever told
About a long lost city of gold
Where you can dream for ever more

Chorus:
Catch the light of a falling star
And find the rainbow's end
Fortune falls on you from afar
At the water's edge
Eldorado and Shangri-la
Sounds of old obey
Colors of every orchestra
Are with you here today

When you find you're all alone
There's a way to find your way back home
Stories ever told
About a long lost city of gold
Where you can dream for ever more

(Chorus)

[Instrumental break]

(Chorus)
