Rhapsody

Closer to the future Distant are your memories Time enough to leave the past behind Hands across the ocean Bridges on a stormy sea

Singing for tomorrow Lift your voices high

Planet Earth Rhapsody Voices unite in harmony From Amsterdam to Tokyo Color the sky with rock 'n roll

Marching after sunset Candles burn like fireflies Evermore in search of higher ground Headed for the future Reaching to infinity There's a summit waiting to be found Singing for tomorrow Lift your voices high

Planet Earth Rhapsody Voices unite in harmony From Amsterdam to Tokyo Color the sky with rock 'n roll

Closer to the future Distant are your memories Time enough to leave the past behind Hands across the ocean Bridges on a stormy sea The overture begins to turn the tide

Singing for tomorrow Lift your voices high
