

Satyr's Moon

Lana Lane

See illusions
Walk through fire
My mind over matter
On winged desire

High on a hill
There's a story returning
Deep in the night
There's a fire ever burning

Oh - Selene
Shadows in the sky
Are so serene
Oh - Selene
Faces in the moon
Are not what they seem

Sleep my love
As one we'll fly
The stars above
Will hear our cry

High on a hill
There's a story returning
Deep in the night
There's a fire ever burning

Oh - Selene
Shadows in the sky
Are so serene
Oh - Selene
Faces in the moon
Are not what they seem

Now you close your eyes day is done
But you will find the sun ...
