

I Don't Care

LANY

I don't care about you
Don't care about you
You can say what you want
You can say what you want

Waste all your breath on me
Do your best to change the way they see

I don't care about you
Don't care about you
You can say what you want
You can say what you want

You like to live in war
Using your lips to break hearts, what for?

I don't care about you
Don't care about you
You can say what you want
You can say what you want
I forgot all about you
Forgot all about you
You can talk all you want
You can talk all you want
Nobody's listening
[x2]
