

Sharing You

LANY

I never saw it comin', I was havin' fun alone
Took a couple shots, now I got your number in my phone
I wanna give you all of my time
Even though I know I'm not yours and you're not mine
I never saw it comin', I was havin' fun alone

I kinda wish you'd talk to me more than you do
I know you're out tonight, but I don't know with who
I'm sorry I get jealous or if I ever act selfish
But it's only 'cause I've got a hard time sharing you

I never saw it comin', I never really get this way
Pretty good with words, with you I don't know what to say
I wanna tell you all my secrets
But I don't even know if you're willin' to keep 'em
I never saw it comin', I never really get this way

I kinda wish you'd talk to me more than you do
I know you're out tonight but I don't know with who
I'm sorry I get jealous or if I ever act selfish
But it's only 'cause I've got a hard time sharing you

Tell me what you wanna know, I'll probably want it too
Tell me where you wanna go and I'll go there with you
Take my hand, I swear to God there's nothin' we can't do
Tell me what you're scared of, I bet I'm scared of it too

I kinda wish you'd talk to me more than you do
I know you're out tonight but I don't know with who
I'm sorry I get jealous or if I ever act selfish
But it's only 'cause I've got a hard time sharing you
