

Camel Through a Needle's Eye

Larry Norman

Well I got something that I think you'll want It's not for sale
, it can't be bought Lean closer let me fill you in Baby you need a friend
You got money, you got diamond rings You're finding out they don't mean a thing
What good's the soul that cannot sing?

So take a chance, take a chance with me Open your eyes and you will see
I own nothing but I'm a wealthy man I'll share it with you if you'll take my hand.
Your daddy's money gonna give you the blues Tell your mama take her hands off you
Pick up the cross, God'll see you through.

You know I love you baby I'll love you hard and I'll love you long
And I don't want this love to perish So listen to the message and the music
And the lyrics of this song.

A camel through a needle's eye Not all the rich have to die Follow closely,
do not stray You can probably keep the money Just give your soul away
Don't negotiate, just stop and pray Lift your head up to heaven and say
Please forgive me, take these things away

And then keep walking, walk tall, doll Carry that cross, A light unto your path,
a lamp unto your feet You fall down, get back up again It's foolishness to them that perish.
I'm gonna love you 'til your dying day. 'Til you're born again or turn me away
It's up to you, there's nothing left to say Just keep walking.
