

I Feel Like Dying

Larry Norman

I Feel Like Dying

i feel like dying

i've done all i can

but i've lost my woman

she ran off with another man

i think i'm dying

i'm feeling such pain

my life's in trouble

and i cannot take the strain

well what am i gonna do about it

what am i gonna do

what am i gonna do about it

what am i gonna do

i feel like dying

i've got nothing to lose

i know i need something

but i do not need these blues

oh i think i'm dying

and this is the end

i need an answer

oh, i need a friend

well what am i gonna do about it

what am i gonna do

what am i gonna do about it

what am i gonna do

i feel like dying

(lead guitar and harmonica)

i feel like dying

like my time has come

my heart is beating

like the pounding of a drum

i think i'm dying

my debts are due

i'm down on the killing floor

and my days on earth are through

well what am i gonna do about it

what am i gonna do

what am i gonna do about it

what am i gonna do

i feel like dying

my life is a grave

despair is my master

but death shall be my slave

darkness surrounds me

my soul is undone

i stare up at Heaven

but i cannot see the sun

well what am i gonna do about it

what am i gonna do

what am i gonna do about it

what am i gonna do

i feel like dying
