

Near To Me

LaRue

I close my eyes to take it in
you've found me
I breathe your mercy once again

you are so holy
i want to
know you like you
know me

chorus
It's your love that makes me alive
it's your love that makes me alive
and i feel it everytime
you're near to me
you make my heart sing
you're near to me
you are my everything

I sing to you I bring to you
all of me that you see
Im letting go all my
fears so

chorus
It's your love that makes me alive
it's your love that makes me alive
and i feel it everytime
you're near to me
you make my heart sing
you're near to me
you are my everything

You are so holy
I want to
know you like you
know me

chorus
It's your love that makes me alive
it's your love that makes me alive
and i feel it everytime
you're near to me
you make my heart sing
you're near to me
you are my everything
