

Run To You (the Piano Song)

LaRue

I'm feeling so inspired about the love that pours over me
And I, I can't describe it, as you overwhelm my soul

And right now I come before you
To praise the name that gives me life

And every time I run to you, you're there for me
And every time I have a wound inside you heal, you heal

And now, in this silence, I feel my heart draw near to
you

And right now I come before you
To praise the name that gives me life

(4x)

And every time I run to You, You're there for me
And every time I have a wound inside you heal, you heal

[till fade]
