

Dominos

Last Dinosaurs

When all the birds are singing
I get vertigo
Then all my problems kick in
Just like dominos

When all the birds are singing
I get vertigo
Then all my problems kick in
Just like dominos

Don't you notice how it plays out
Every single time?
It just adds up
Til' it all falls down

But I've been working for a long time
I ain't just gonna let it slide
I know that's life but I just can't agree

When all the birds are singing
I get vertigo
Then all my problems kick in
Just like dominos

If we fall again in the same track
With a different point of view
Should I hold on
Til' it all breaks down?

But I've been waiting for a long time

I ain't just gonna let it slide
I know that's life but I just can't agree

When all the birds are singing
I get vertigo
Then all my problems kick in
Just like dominos

The time
Like a cactus in the sun
I guess, I guess
When you're standing still it's hard to make a difference
So I say

I know it's only a phase
It's good in a peculiar way

When all the birds are singing
I get vertigo
Then all my problems kick in
Just like dominos

When all the birds are singing
I get vertigo
Then all my problems kick in
Just like dominos

I know it's only a phase
