

Non Lo So

Last Dinosaurs

Riding this one out for something
Arriving at a cloud of nothing
Slowly come now unfolding
I knew I had my doubts but oh

I think about the love we won't discover
Living like we do
I think you'll find you'd rather see your mother to remind you

Deeper into sin, oh, deeper
Vulgarity don't give in either
Take me somewhere else, just somewhere
Feels like I am dying a slow death

Arriving at a cloud from nowhere
Slowly come down to somewhere

I think about the love we won't discover
Living like we do
I think you'll find you'd rather see your mother to remind you

Midnight
Can't get no rest because my soul's on fire
Waking up in sunlight
Indifferent to the clear blue sky

I think about the love we won't discover
Living like we do
I think you'll find you'd rather see your mother to remind you
I think about the love we won't discover
Living like we do
Living like we do
