

The Hating

Last Dinosaurs

Are you from the media?
Tell the prime minister to go and get f**ked from Nelligen
We really enjoy doing this s***, ****head
Yes, I hate you
Yes, I hate you, yes, I hate you
Get away from me, stay away from you
Didn't know the world would revolve around
Something outside of your gloomy day
Don't wanna make a scene of this
But I got a little something to confess (Confes)
I'm talking 'bout my countrymen
It seems the whole world thinks they're great but me
(Don't get me wrong, I'm not talkin' 'bout all of them)
But me (Passive aggressive tall poppy, we'll cut you down)
Yes, I hate you, yes, I hate you
Get away from me, stay away from you
Such a spoilt child, I see through it now
No one wants you on the team to play
Yes, I hate you
Yes, I hate you

Looking like a secret mess
Competent actor at your very best
Fragile generation Z
Trapped inside your world like you're supposed to be
(It's so easy when that's all you know about)
To be (And don't it feel good to look down on those out of town
)
Yes, I hate you, yes, I hate you
Get away from me, stay away from you
Such a spoilt child, I see through it now
No one wants you on the team to play
Eso si, te odio
Narcisista maximo
Olvidate de quien fuiste tu
Que solo te queda acritude
Yes, I hate you, yes, I hate you
Get away from me, stay away from you
Didn't know the world would revolve around
Something outside of your gloomy day
Yes, I hate you, yes, I hate you
Get away from me, stay away from you
Such a spoilt child, I see through it now
No one wants you on the team to play
