

# Hope

Late Night Alumni

Can there be another way  
I look around to find another day  
Hope now it's hard to see  
Into eternity

Hold on, knowing the rain is here  
But we gotta believe it won't last  
Keep on hoping  
I know it's hard but we have to believe it will pass

Since this time it's ours to share  
I won't be here, you won't be over there  
Only love can ever take  
You alone can find a way

Hold on, knowing the rain is here  
But we gotta believe it won't last  
Keep on hoping  
I know it's hard but we have to believe it will pass

There is hope  
There is hope  
There is hope  
There is hope

Hold on, knowing the rain is here  
But we gotta believe it won't last  
Keep on hoping  
I know it's hard but we have to believe it will pass

There is hope  
There is hope  
There is hope  
There is hope

Hold on, knowing the rain is here  
But we gotta believe it won't last  
Keep on hoping  
I know it's hard but we have to believe it'll pass
