Cause she was his lover She was his friend He was her everything Someone to depend

When she wakes up
In the mornin'
And all his things are gone
Sshe looks into the mirror
Thinkin' what did i do wrong

There he goes
But i gotta keep movin'
There ain't nothing
To lose for?

Everyday Has it's ups and downs You think you're lost You will be found Most of us Want the same old things Someone to love What it brings I know it's hard It gets tough sometimes You gotta hold on Like a carousel Going around And around And around And around

She was so young
But she was in love
He promised her everything
That she could dream of

When she wakes up
In the mornin'
Finds that he ain't there
She looks into the mirror
Thinking how did i get here

There he goes
But i gotta keep movin'
There aint nothin'
To lose for?

Everyday has
It's ups and downs
You think you're lost
You will be found
Most of us
Want the same old things
Someone to love
What it brings

I know it's hard
It gets tough sometimes
You gotta hold on
Like a carousel
Ggoing around
And around
And around
And around
And around

## Yeahhhh

Everyday has
It's ups and downs
You think you're lost
You will be found
Most of us
Want the same old things
Someone to love
What it brings
I know it's hard
It gets tough sometimes
You gotta hold on
Like a carousel
Going around
And around (3x)
