

For The Ride

Laura Marano

I'm through with holding back
Been there, I'm done with that
Don't even tell me that I'm not ready

I'm driving, windows down
I know my way around
The sky above me is all confetti

Everything that could wrong, might go wrong
And I could filled doubt cause
Everything that can go wrong, will go wrong
And it's alright

I'm living for the ride
I don't care a minute for life
I don't even matter
If I make mistakes, and my heart breaks
I'll make it out alive

I'm living for the ride-ide-ide-ide-ide
I'm living for the ride-ide-ide-ide-ide

I'm living for the ride!
