

I Wanna Know What It's Like

Laura Marano

Got to keep it on the low
Cause you know that I'm involved in it
But it's out of my control
Gonna get myself in trouble here

But I wanna know
I need to know
Why when I'm with you (mmm)
I've been getting confused
But I wanna know
I need to know
What I'm supposed to do
When you walk in the room

I wanna know what it's like, like, like, like, like, like, like, like
I wanna know what it's like, like, like, like
To be the one who
Imagine how the skin feels where you touch
Imagine you and I could be an us
I wanna know what it's like, like, like, like
To be the one who
Has you

Totally alone
Honestly I'm just too curious
My mind's out of control
A daydream never felt so serious

But I wanna know
I need to know
Why when I'm with you (mmm)
I find it hard to move
But I wanna know
I need to know
What I'm supposed to do
Should I tell the truth

I wanna know what it's like, like, like, like, like, like, like, like
I wanna know what it's like, like, like, like
To be the one who
Imagine how the skin feels where you touch
Imagine you and I could be an us
I wanna know what it's like, like, like, like
To be the one who
Has you

(Like, like, like)
(Like, like, like)
I wanna know what it's like
(Like, like, like)
(Like, like, like)
I wanna know what it's like

Fantasy
Maybe it will only ever be fantasy
Maybe it will only ever be fantasy
Maybe it will only ever be fantasy

I wanna know what it's like, like, like, like, like, like, like
I wanna know what it's like, like, like
To be the one who
I wanna know what it's like, like, like, like, like, like, like
I wanna know what it's like, like, like
To be the one who
Imagine how the skin feels where you touch
Imagine you and I could be an us
I wanna know what it's like, like, like
To be the one who
Has you

(Like, like, like)
(Like, like, like)
I wanna know what it's like
(Like, like, like)
(Like, like, like)
I wanna know what it's like
(Like, like, like)
(Like, like, like)
I wanna know what it's like
(Like, like, like)
(Like, like, like)
I wanna know what it's like

Fantasy
Please, let this be more than fantasy
