

You, you fell asleep
listening to me
linger on
about how it used to be
in the backseat
when we were young
when we were young
when we were young

My oldest friend
you know me then
you know me now
how did I get lost
looking for God
in Santa Cruz?
where you go to lose your mind
well I went too far this time

When we were young
when we were young
we belonged to someone
and that was easy

I've got us lost
so I've turned us off
in Joshua Tree
you, you're my oldest friend
so I know you then
and you know me
it was a bit too high for me
I spent a month thinking
I was a high desert tree

When we were young
when we were young
we belonged to someone
and that was easy

Well you cant be lost if you're not on your own
well you can't be found if you're not all alone
well you cant get lost if you're not on your own
well you can't be found if you're not all alone
when we were young
when we were young
we belonged to someone
and that was easy
